

# IAF MLA 2017 – a year of facilitating GLOBAL trade

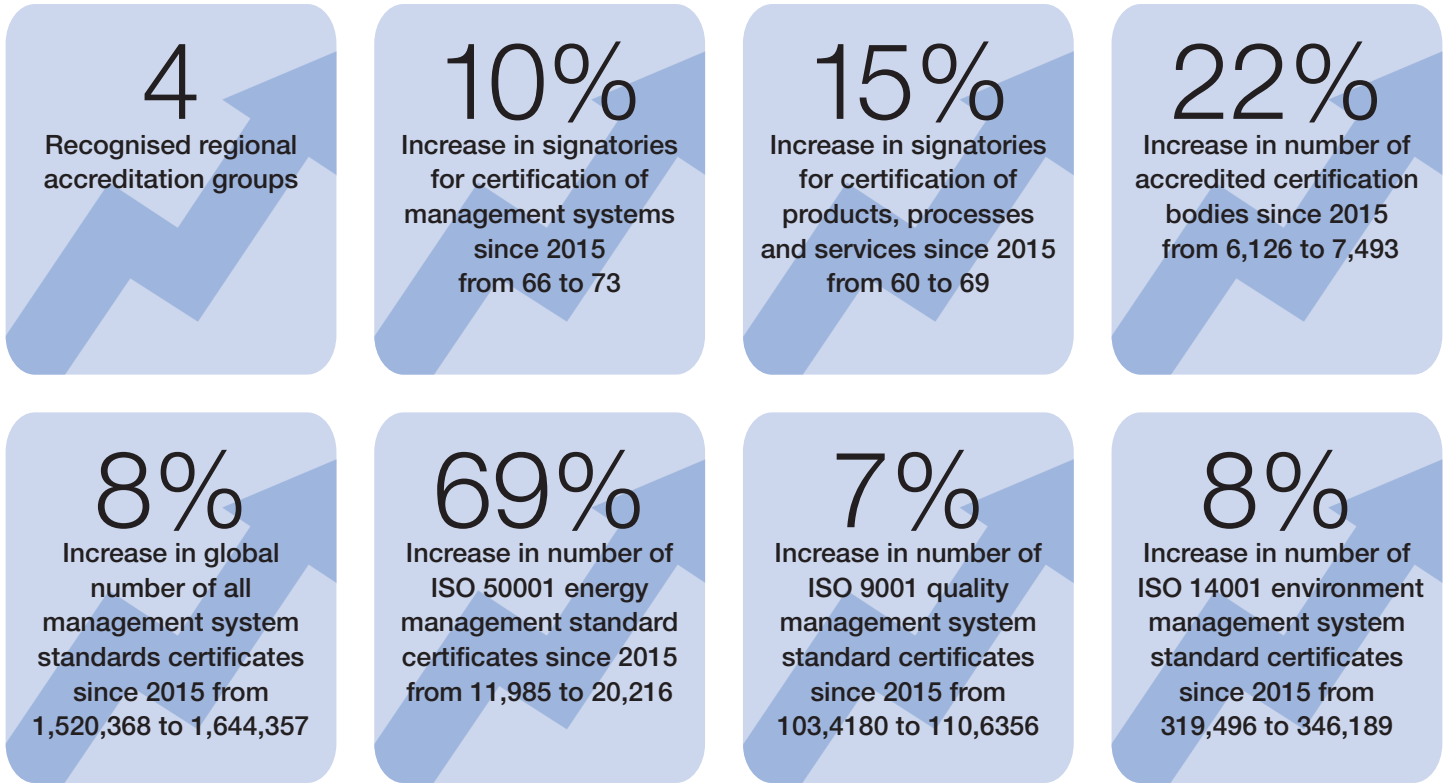

## An Introduction to IAF and the MLA:

IAF is the global association of conformity assessment bodies and other bodies involved in the certification of management systems, persons and products. Its primary function is to develop a single worldwide program of conformity assessment aimed at reducing risk for businesses and their customers.

The IAF MLA provides assurance that equivalent certification and verification bodies in other countries operate under the same standards. The aim being “certified once, accepted everywhere”.

- NEW IAF MLA Signatories
- IAF MLA Signatories
- IAF Members that are not as yet Signatories
- Non Members

The signatories to the IAF MLA and their accredited conformity assessment bodies use the **IAF MLA Mark** to show international recognition.

## The value of the IAF MLA

Gathering the evidence to demonstrate the value of accreditation and accredited services with case studies and research papers.
