MEMORANDUM OF UNDERSTANDING

Issue 6

(IAF PL 6:2016)
The International Accreditation Forum, Inc. (IAF) facilitates trade and supports regulators by operating a worldwide mutual recognition arrangement among Accreditation Bodies (ABs) in order that the results issued by Conformity Assessment Bodies (CABs) accredited by IAF Accreditation Body Members are accepted globally.

Accreditation reduces risk for business and its customers by assuring that accredited CABs are competent to carry out the work they undertake within their scope of accreditation. ABs that are members of IAF and the CABs they accredit are required to comply with appropriate international standards and the applicable IAF application documents for the consistent application of those standards.

ABs that are signatories to the IAF Multilateral Recognition Arrangement (MLA) are evaluated regularly by an appointed team of peers to provide confidence in the operation of their accreditation schemes. The structure and scope of the IAF MLA is detailed in IAF PR 4 - Structure of IAF MLA and Endorsed Normative Documents.

The IAF MLA is structured in five levels: Level 1 specifies mandatory criteria that apply to all ABs, ISO/IEC 17011. The combination of Level 2 activity(ies) and the corresponding Level 3 normative document(s) is called the main scope of the MLA, and the combination of Level 4 (if applicable) and Level 5 relevant normative documents is called a sub-scope of the MLA.

- The main scope of the MLA includes activities e.g. product certification and associated mandatory documents e.g. ISO/IEC 17065. The attestations made by CABs at the main scope level are considered to be equally reliable.

- The sub scope of the MLA includes conformity assessment requirements e.g. ISO 9001 and scheme specific requirements, where applicable, e.g. ISO TS 22003. The attestations made by CABs at the sub scope level are considered to be equivalent.

The IAF MLA delivers the confidence needed for market acceptance of conformity assessment outcomes. An attestation issued, within the scope of the IAF MLA, by a body that is accredited by an IAF MLA signatory AB can be recognized worldwide, thereby facilitating international trade.

Memorandum of Understanding

1 INTRODUCTION

1.1 The organisations on behalf of which this Memorandum of Understanding (MoU) is signed are Members of the International Accreditation Forum, Inc. (IAF).

1.2 IAF is an international association of organisations that have agreed to work together on a worldwide basis to achieve common trade facilitation objectives. IAF is a major world forum for developing the principles and practices for the conduct of conformity assessment that will deliver the confidence needed for market, regulatory and public acceptance of conformity assessment results. IAF acts through the accreditation of those bodies that perform conformity assessment such as management systems certification, product, process and service certification, certification of persons, verification/validation, or similar conformity assessment activities.

1.3 IAF is open to organisations, as defined in the Bylaws, that meet the requirements defined in the Bylaws and uphold the objectives of IAF and that are prepared to actively participate in the work of IAF, and which sign this MoU in accordance with the requirements of the Bylaws, as a declaration of their commitment to the objectives of IAF and the obligations of Members.

1.4 The primary function of IAF is to provide a single system which organisations with an accredited conformity assessment certificate in one part of the world use to have that certificate recognised everywhere else in the world. IAF seeks to achieve that function by promoting the international acceptance of accreditations granted by its signatory Accreditation Body Members of the IAF Multilateral Recognition Arrangement (MLA), based on the equivalence of their accreditations. Admittance as signatory to the IAF MLA is contingent on successful peer evaluation in accordance with the IAF MLA Policies and Procedures.

1.5 Members of IAF have rights as set out in Section 3, and the Bylaws.

1.6 All Members shall sign the MoU. The signing of this MoU on behalf of an organisation commits the organisation to support the Objectives of IAF as set out in Section 2, to abide by the Obligations set out in Section 4, and to abide by the requirements of the IAF Bylaws.

1.7 The organisation and person making this declaration acknowledges that IAF may, in its discretion, admit to membership those organisations which have stated objectives compatible with this MOU, including the facilitation of efficient commerce between economies.
2 OBJECTIVES

   c. providing technical assistance to economies that are developing an accreditation body;

iii) establish and maintain confidence in the accreditation activities of Accreditation Body Members and in the activities of conformity assessment bodies accredited by them by:
   a. participation by Accreditation Bodies and Regional Accreditation Groups in the IAF MLA;
   b. exchange of information (subject to relevant requirements for confidentiality);
   c. participation in IAF activities; and
   d. participation in regional accreditation groups where they exist and where they are eligible to join;

iv) support the implementation by accreditation and conformity assessment bodies of those normative documents which are endorsed by IAF;

v) harmonise the application of criteria for accreditation, based on IAF endorsed normative documents, and publicly available IAF documents on the application of those normative documents;
